In June 2024 CBET will host the NIMBL eXperience, open to Black, Latinx, and Indigenous first- and second-year US college students enrolled in any STEM-based major. The goal of this weeklong program is to introduce students to career possibilities in the biopharmaceutical industry. Students will interact with industry experts, conduct hand-on demonstrations and activities, network and receive career development tips. All travel, accommodations and meal costs are covered by the National Institute for Innovation in Manufacturing Biopharmaceuticals. Learn more and apply by March 1, 2024 at <https://cbet.acphs.edu/niimbl-experience-student-application/>.

NIMBL The National Institute for Innovation in Manufacturing Biopharmaceuticals

Join us for the

NIMBL eXperience

SUMMER 2024

The NIMBL eXperience is an exclusive in-person, all expenses paid immersion program that offers college students real-world insight into biopharmaceutical industry careers through hands-on activities and direct interactions with industry professionals. The program targets African American/Black, Latinx, and Native American students completing their freshman or sophomore year of college. It is open to students enrolled in any STEM-based major living in the United States. All travel costs are covered by NIMBL eXperience hosts.

Since its inception in 2019, 80 students have participated in this unique program. Students have gone on to secure internships with leading biopharma companies, including Merck, Pfizer, MilliporeSigma, and Eli Lilly.

In 2024, we are excited to offer five NIMBL eXperience programs across the country. Where can you STEM-based degree take you? Explore the possibilities during the NIMBL eXperience. Apply now for the eXperience closest to you.

Apply at niimbl.org/niimbl-experience

led by Santa Clara University

Amnon Pinizzotto Biopharmaceutical Innovation Center | 590 Avenue 1743 Newark, DE 19713 | www.niimbl.org

BENEFITS

- Interactions with industry experts
- Hands-on demonstrations and activities
- Networking opportunities
- Career development expertise
- Travel, accommodations, and meals covered by eXperience hosts

ELIGIBILITY

- Undergraduate students completing their freshman or sophomore year with an interest in STEM, emphasis on African American/Black, Latinx, and Native American populations
- Must be enrolled in a STEM-based major
- Limited to students living in the United States
- Commitment to sharing your eXperience broadly on campus and through social media

ABOUT THE PROGRAM

Through a series of in-person presentations and hands-on activities, you will connect with large biopharmaceutical manufacturers, small companies, non-profits, and academic institutions. All of which will provide unique perspectives on biopharmaceutical careers and pathways to achieve your professional goals. Plus, the program focuses on aspects of career development beyond biopharma including personal branding and networking.

The program has helped students begin their career journeys by connecting them to internship opportunities at the world's leading biopharmaceutical manufacturing companies including Merck & Co., Inc., Genentech, Eli Lilly, and MilliporeSigma.

APPLY NOW FOR EXPERIENCE 2024

Students are selected through a competitive application process. Don't miss this chance to explore where a career in the biopharmaceutical industry can take you. Complete your application by **March 1, 2024**.

Contact Kathie Young at kathiey@udel.edu.

APPLICATION DEADLINE

MARCH 1, 2024!

Apply at niimbl.org/niimbl-experience

"I was able to see the wide range of companies and jobs that contribute to the biopharma field, which gave me insight on the different jobs available."

NIMBL eXperience participant

"The wealth of knowledge for STEM fields, career building information and networking. I've developed a few ways to explore the industry more."

NIMBL eXperience participant

"I think understanding the background of the people clad in lab coats and what they studied helped give me more options and hope that I can find my path while I study."

Featured events for ACPHS clubs

On December 11, the Jewish Cultural Club (JCC) is hosting a Chanukah event. Be sure to look at Engage for more information!

Congratulations to The Lighthouse for the Operation Christmas Child event. They packed 42 boxes with items to send to children all over the world for the holiday season! They would like to say a huge thanks to our generous ACPHS students, faculty and staff for their many donations that made this possible.

About the ACPHS DEI Work Study Editors

Hi! My name is **Angelina Reish**. I am a first-year student in the PharmD program and I'm from Guilderland, NY. I'm on the track and field team and I love watching sports (football is the best sport to watch). I'm a member of Pinky Swear PACK and APhA-ASP. My favorite movie is "Just Go With It" and I am the BIGGEST fan of the New York Giants (even though they've been having a rough season).

Hello, my name is **Tobias LaFountain**, but you can call me Toby. I am a first-year microbiology student and an aspiring medical doctor. I am interested in playing most board and card games, love doing puzzles, am a competitive swimmer, and of course, love science!

We work with Jonathan Phipps in the Office of DEI to put together the newsletter for our faculty, staff and students. We would appreciate any feedback you have about our newsletter to improve it for the next one in February! We hope that finals week goes well for everyone! Have a safe & fun winter break!

Thanksgiving ends

Most people: "I'm so hyped for the holidays!"
