

Pre-Approved Courses to be used for Remediation

The following courses are pre-approved for use as remediation for courses offered through the Department of Basic and Clinical Sciences. Students taking any of these courses for remediation are required to complete the “Course Permission Form” available on the Registrar’s Intranet site but are not required to obtain the signature of the course instructor.

When lecture and lab are separate courses at the host institution, both must be taken to receive credit. For online courses, the lab must be performed in lab and exams must be taken in a proctored environment.

Students are welcome to remediate coursework using courses other than those listed below. To do so requires that a “Course Permission Form” be completed, including all signatures.

School	General Chemistry I	General Chemistry II
Adirondack CC	CHE 111	CHE 112
Broome CC	CHM 145 & 145L	CHM 146 & 146L
Hudson Valley CC	CHEM 110	CHEM 111
Mohawk Valley CC	CH 141	CH 142
Nassau CC	CHE 151: Inorganic Chemistry (General Chemistry is not acceptable)	CHE 152: Inorganic Chemistry (General Chemistry is not acceptable)
Onondaga CC	CHE 103	CHE 104
Orange County CC	CHM 105	CHM 106
Rockland CC	CHM 101: Inorganic Chemistry	CHM 102: Inorganic Chemistry
Schenectady County CC	CHM 121	CHM 122
SUNY Albany	CHM 120 & CHM 124	CHM 121 & CHM 125
SUNY Potsdam	CHEM 105	CHEM 106
William Paterson U of NJ	CHEM 1600	CHEM 1620
School	General Biology I	General Biology II
Hudson Valley CC	BIOL 150	BIOL 151
Mohawk Valley CC	BI 141	BI 142
Nassau CC	BIO 109	BIO 110
School	Organic Chemistry I	Organic Chemistry II
Hudson Valley CC	CHE 210	CHE 211
SUNY Albany	ACHM 220 & ACHM 222	ACHM 221 & ACHM 223
Schenectady County CC	CHE 228 (5 credits)	

School	College Physics I	College Physics II
Students remediating both College Physics I and II must intend on completing both courses that belong to the same two-semester course sequence offered at the same institution. Course permission form for both courses must be completed at the same time. Students remediating just College Physics I or College Physics II may take any of the courses listed in the appropriate column.		
Hudson Valley CC (preferred course sequence)	PHYS 140	PHYS 141
Hudson Valley CC (acceptable course sequence)	PHYS 135	PHYS 136
SUNY Albany	APHY105 & APHY 106	APHY 108 & APHY 109
School	Microbiology	
Hudson Valley CC	BIOL205	
SUNY Albany	BIO213	
School	Calculus	
There are no pre-approved courses for Calculus. Please contact the instructor for all approvals.
